

Classic AR-15/10 Mil-Spec Stock

Warning:

When handling a firearm, always follow the proper handling procedures at all times. Failure to follow these procedures could result in serious damage, injury, or death. WE are not responsible for damage to property, injury, or death resulting from improper installation, misuse or modification of products. If you are not comfortable completing any of the following steps, or do not have the proper tools enlist the help of your local gunsmith. We are not responsible for components that are damaged due to improper installation.

Parts List

A. AR-15/10 Classic Stock

A

1 Lever Position for Assembly

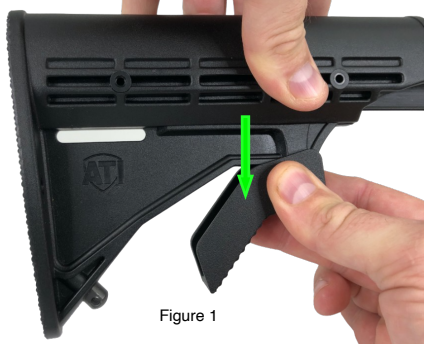

Figure 1

Begin by pulling down on the lever, as shown in (Figure 1). Make sure you pull the lever all the way down until the pin is flush inside of the stock.

2 Sliding the Stock onto Buffer Tube

Figure 2

With the lever all the way down, slide the stock onto the military buffer tube. Keep the lever pulled down until the stock slides all the way on, as shown in (Figure 2).

Note: This stock will only fit on military buffer tubes. This stock will not fit on commercial buffer tubes.

3 Stock Function

Figure 3a

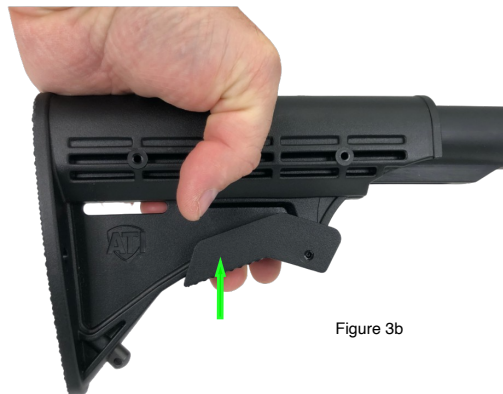

Figure 3b

To function the stock on the buffer tube, pull up on the lever as see in (Figure 3a & 3b). This will allow you to pick one of the positions along the buffer tube. Keep adjusting until you have a comfortable length of pull.
