**Warning:** When handling a firearm, always follow the proper handling procedures at all times. Failure to follow these procedures could result in serious damage, injury, or death. WE are not responsible for damage to property, injury, or death resulting from improper installation, misuse or modification of products. If you are not comfortable completing any of the following steps, or do not have the proper tools enlist the help of your local gunsmith. We are not responsible for components that are damaged due to improper installation.

1

Begin by unscrewing the magazine cap by turning the cap counter clockwise and then removing the barrel by pulling it out of receiver as seen in Figure 1.

2

Using the appropriate magazine socket wrench or spanner wrench, unscrew the forend nut and then remove the nut and forend as seen in Figure 2.
