NON APPLICABLE

TOOLS Needed

Phillips Head Screwdriver

Warning: When handling a firearm, always follow the proper handling procedures at all times. Failure to follow these procedures could result in serious damage, injury, or death. WE are not responsible for damage to property, injury, or death resulting from improper installation, misuse or modification of products. If you are not comfortable completing any of the following steps, or do not have the proper tools enlist the help of your local gunsmith. We are not responsible for components that are damaged due to improper installation.

1

Cut out the mounting template.

2

Place 5 shotgun shells in holder and position on stocks.

3

Locate proper position on the stock so there is no interference with the cheek, shoulder, etc. NOTE: Shotshell Holder may be mounted on either side of the stock.

4

Place mounting template where you wish to mount the shell holder and tape it down.

5

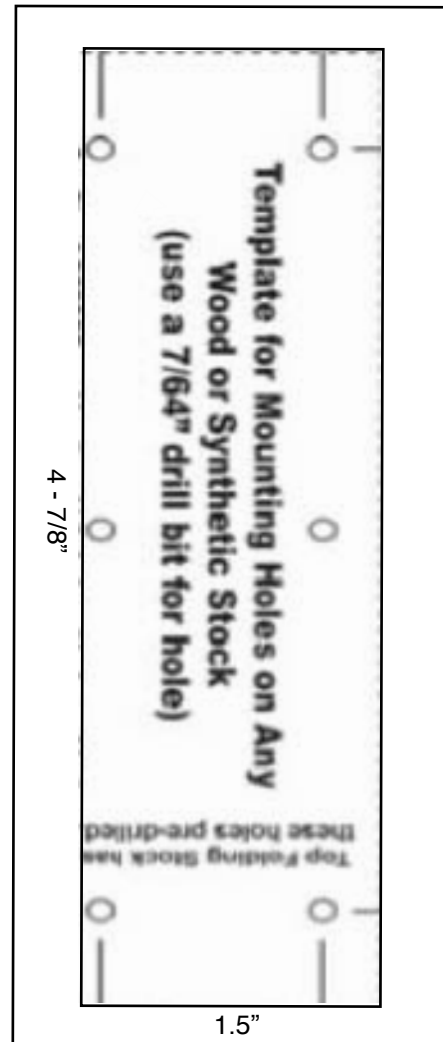

Mark ONLY the corner holes of the template with an object such as a nail or punch.

6

Remove the shells and drill the 4 holes using a 7/64" drill bit.

7

Mount the shell holder using the 4 Phillips Head screws provided. RE-insert all 5 shotshells and check for a snug fit. For a tighter fit install the middle 2 screws.
